INFOSEC IQ™

Security awareness training

Module catalog

Updated: Q1 2023

INFOSEC IQ

What's included

The Infosec IQ training module catalog provides a brief description of every training module available in the Infosec IQ security awareness and training platform. Each module lists a target industry and role to help you identify the most relevant training for your organization and employees.

Training modules are grouped into nine core cybersecurity topics built from NIST recommendations. This allows you to search for training content by cybersecurity topic while helping you build a comprehensive training curriculum that prepares each employee for the various cyber threats they face.

Run a filtered search

Use our online content library to search for training modules by:

- Keyword
- Language
- Industry
- Role
- Duration
- Content type
- Subscription plan

Phishing

Core Concepts: Business Email Compromise (BEC)

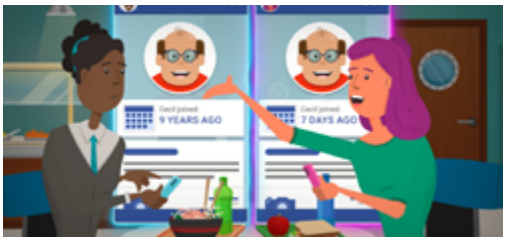
What is Business Email Compromise, and what does it mean for you? Take a look at BEC and learn what you need to know about protecting yourself from this common cyberattack.

ALL INDUSTRIES | GENERAL | 5:16 MINUTES

SCORM compliant

Need to Know: Social Media Best Practices

Friend or foe? Erica and Ivana take a closer look at a suspicious request and figure out just who they can trust.



ALL INDUSTRIES | GENERAL | 3:12 MINUTES

SCORM compliant

Hacked for the Holidays 2022

Give the gift of cybersecurity! Take a few minutes learn about the common holiday scams of 2022 and review some tips for enjoying the holidays safely. Best wishes from your friends at Infosec!

ALL INDUSTRIES | GENERAL | 4:09 MINUTES

SCORM compliant

Work Bytes: Introduction

It's time to meet the team! Sit in on a meeting with the Work Bytes crew and learn about some cybersecurity challenges.

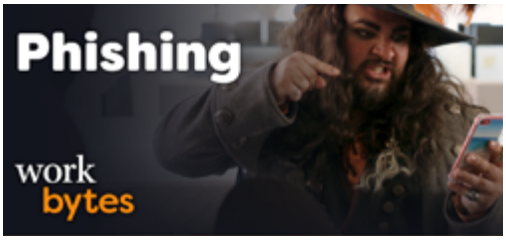
ALL INDUSTRIES | GENERAL | 3:39 MINUTES

SCORM compliant

Create a free account to preview every training module.

Work Bytes: Phishing

The captain gets a message that promises riches and adventure ... But what does this treasure map really hide?



ALL INDUSTRIES	GENERAL	3:55 MINUTES

SCORM compliant

Core Concepts: Phishing

Phishing catches people every day. Learn about what phishing is, how it works and how to avoid the phisher's net!

ALL INDUSTRIES	GENERAL	7:20 MINUTES

SCORM compliant

Core Concepts: How to Report Phishing Emails

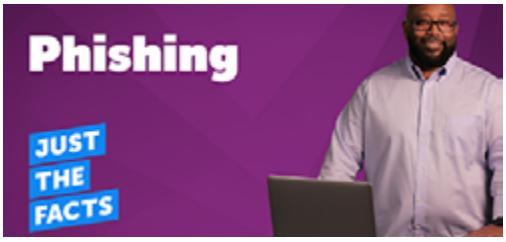
Our Reporting Phishing Emails module reviews the functionality of the PhishNotify button, which allows users to report suspicious emails to system administrators through Outlook, Office 365 and Gmail.

ALL INDUSTRIES	GENERAL	1:20 MINUTES

SCORM compliant

Just the Facts: Phishing

Don't get caught by phishers trawling for data. Get the facts on phishing: what it is, how it works and what you can do to avoid it.



ALL INDUSTRIES	GENERAL	4:07 MINUTES

SCORM compliant

Create a free account to preview every training module.

Need to Know: Phishing

Learn how to spot the bait as Anthony guides his friend Cecil through the dangers of phishing. Is this actually a very exciting email from the boss, or is it just another hacker's trap?

ALL INDUSTRIES | GENERAL | 4:40 MINUTES

SCORM compliant

Choose Your Own Adventure®: Zombie Invasion

Hannah's work day just got a lot worse! As malware zombies take over, she needs you to make the right cybersecurity choices or face the possibility of becoming infected herself.

ALL INDUSTRIES | GENERAL | 3:56 MINUTES

SCORM compliant

Phishing

Our interactive phishing training outlines where phishing messages may appear, how to distinguish phishing from normal communications, and when and how to report phishing attacks.

ALL INDUSTRIES | GENERAL | 20:50 MINUTES

SCORM compliant

Phishing In Brief

This module will introduce learners to the concept of phishing, teach them how to quickly identify phishing messages and show them how to verify whether or not a message is legitimate.

ALL INDUSTRIES | GENERAL | 2:49 MINUTES

SCORM compliant

Create a free account to preview every training module.

Need to Know: Email Security

It's a spam attack when Karen uses her work email to sign up for a shopping site. Can Anthony brave the storm, or are they both destined to sink under the storm of questionable email ads?

ALL INDUSTRIES | GENERAL | 1:49 MINUTES

SCORM compliant

Need to Know: Downloading Suspicious Files

When a suspicious file arrives, Anthony helps Erica figure it out... sort of.

ALL INDUSTRIES | GENERAL | 1:08 MINUTES

SCORM compliant

Need to Know: Business Email Compromise (BEC)

Karen is asked to process an unusual request, but it's not her department. Is it business as usual, or is there something more sinister going on here?

ALL INDUSTRIES | GENERAL | 3:21 MINUTES

SCORM compliant

Need to Know: Replying to Suspicious Emails

Harold isn't great at passwords, but he knows how to recognize a scam. He helps Cecil spot a couple of phishing hooks.

ALL INDUSTRIES | GENERAL | 2:11 MINUTES

SCORM compliant

Password security

Work Bytes: Password Security

Nobody likes thinking up new passwords ... But if you don't change them regularly, the consequences could be downright scary! Learn about password safety and security with the Work Bytes team.

ALL INDUSTRIES | GENERAL | 3:36 MINUTES

SCORM compliant

Just the Facts: Password Security

Get to grips with the challenges of password security. Explore password problems and protection tips, and get the facts you need to keep your data secure.

ALL INDUSTRIES | GENERAL | 4:59 MINUTES

SCORM compliant

Need to Know: Password Security

A system is only as secure as its password. Join Anthony and Daryl as they get to grips with the challenges of creating a strong password ... because safety is not as easy as 1-2-3.

ALL INDUSTRIES | GENERAL | 3:51 MINUTES

SCORM compliant

Password Security

Our interactive Password Security module shows learners how to create complex, but easy-to-remember, passwords following best practices for password creation.

ALL INDUSTRIES | GENERAL | 21:16 MINUTES

SCORM compliant

Create a free account to preview every training module.

Need to Know: Multi-Factor Authentication

Cecil makes some poor choices as Erica and Karen team up to explain two-factor authentication.

ALL INDUSTRIES | GENERAL | 2:12 MINUTES

SCORM compliant

Need to Know: Creating Strong Passwords

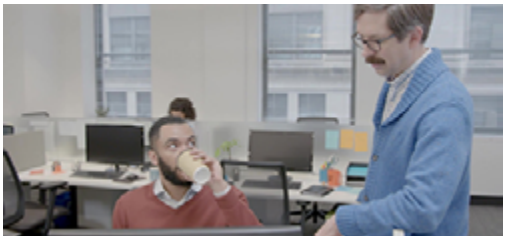
Anthony helps Harold create a new, strong password. Turns out what you really need is just a little more ... creativity.

ALL INDUSTRIES | GENERAL | 2:19 MINUTES

SCORM compliant

WORKed Episode 4: Coffee Guy

Watch to discover Charlie's password to EVERYTHING. Help your employees select strong passwords with this WORKed training module.

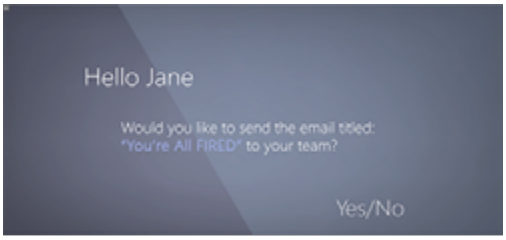


ALL INDUSTRIES | GENERAL | 2:00 MINUTES

SCORM compliant

Password Security for Executives

This module will teach executives how to create strong passwords and keep them safe, and show how they can personally support secure password management policies and habits within their companies.



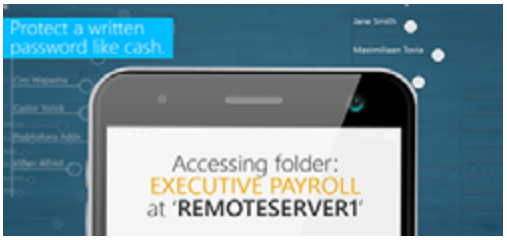
ALL INDUSTRIES | EXECUTIVES | 10:39 MINUTES

SCORM compliant

Create a free account to preview every training module.

Password Security for Managers

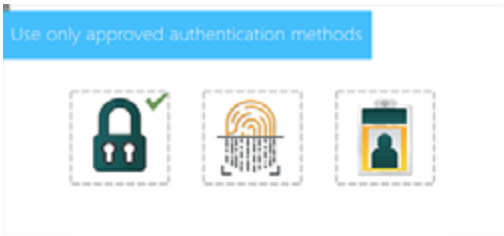
This module will show managers how to pick strong passwords and keep them safe, how to securely set passwords for employees and how to help employees with password security related issues.



ALL INDUSTRIES	MANAGERS	11:50 MINUTES

Password Security for Healthcare Professionals and Providers

This module stresses the importance of following internal policies regarding creating complex, effective passwords to protect access to protected health information.



HEALTHCARE	GENERAL	9:25 MINUTES

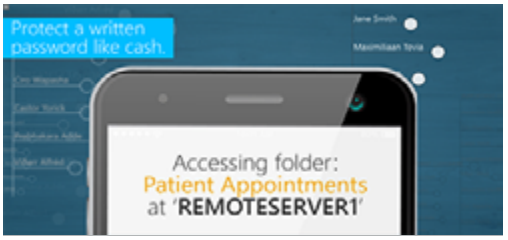
Password Security for Healthcare Executives

This module will teach healthcare executives how to create strong passwords and keep them safe, and how they can support secure password management policies and habits within their companies.

HEALTHCARE	EXECUTIVES	10:46 MINUTES

Password Security for Healthcare Managers

It will show healthcare managers how to pick strong passwords and keep them safe, how to securely set passwords for employees and how to help employees with password security related challenges.



HEALTHCARE	MANAGERS	10:32 MINUTES

Create a free account to preview every training module.

Password Security for Financial Institutions

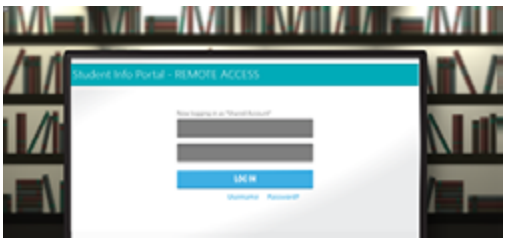
Our interactive Password Security module stresses the importance of following internal policies regarding access to sensitive financial information.

FINANCE	GENERAL	9:32 MINUTES

SCORM compliant

Password Security for Educators

Our interactive Password Security module stresses the importance of following internal policies regarding access to sensitive student information.



EDUCATION	GENERAL	10:01 MINUTES

Data Security

In this module, learners are introduced to the concept of data security, its significance and the risks posed by insecure data handling.

ALL INDUSTRIES	GENERAL	9:51 MINUTES

SCORM compliant

Introduction to Account Takeover Attacks (ATO)

Learn about account takeover attacks: what they are, what they aim for, and how to keep yourself safe from them.

ALL INDUSTRIES	GENERAL	5:32 MINUTES

SCORM compliant

Create a free account to preview every training module.

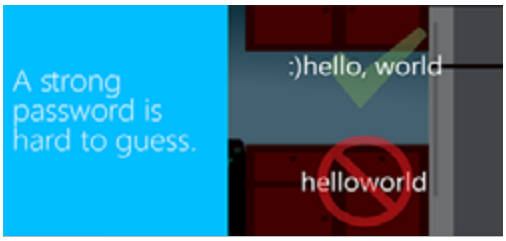
Securing Privileged Access

This module will discuss the issue of securing privileged access, including the fundamentals of access security and the dangers that can be caused by a misused account.

ALL INDUSTRIES | IT/IS STAFF | 5:50 MINUTES

Creating Strong Passwords (Video)

This short video details the process of choosing secure, robust passphrases in under one minute.



ALL INDUSTRIES | GENERAL | 0:46 MINUTES

Secure Password Storage (Video)

This short video introduces methods employees can use to store passwords securely. Topics include physical security and password storage applications.

ALL INDUSTRIES | GENERAL | 1:05 MINUTES

SCORM compliant

How Much Is Too Much? (Password Security)

In less than one minute, this video reinforces the importance of keeping passwords private.

Create a free account to preview every training module.

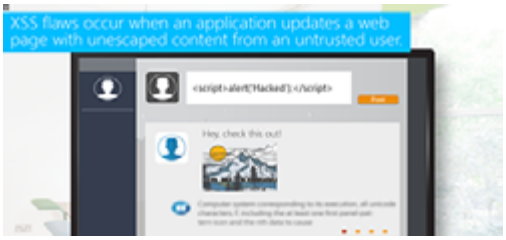
OWASP A7 - Cross-Site Scripting (XSS)

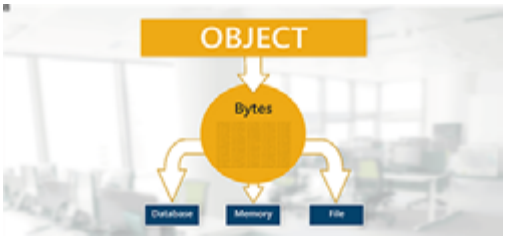
This module covers cross-site scripting.



ALL INDUSTRIES | DEVELOPERS | 4:18 MINUTES

OWASP A8 - Insecure Deserialization

This module covers insecure deserialization vulnerabilities in applications and how to prevent these flaws.



ALL INDUSTRIES | DEVELOPERS | 4:11 MINUTES

Top 25 #1 - SQL Injection

This module discusses the risks of SQL injection attacks and how to prevent them.

ALL INDUSTRIES | DEVELOPERS | 2:20 MINUTES

SCORM compliant

Cloud Services

This module will define the cloud and different types of cloud services available, and explain the benefits and risks of cloud-based services.

ALL INDUSTRIES | GENERAL | 6:53 MINUTES

SCORM compliant

Create a free account to preview every training module.

Underprotected APIs

This module defines underprotected application programming interfaces (APIs), explains why API security is important and discusses common attack methods and mitigation strategies.

ALL INDUSTRIES | DEVELOPERS | 2:54 MINUTES

SCORM compliant

Suspicious Hosts

Suspicious hosts are known malicious or potentially unsafe IP addresses or hostnames. This module will show how safe browsing can protect Internet users from malicious attacks from suspicious hosts.

ALL INDUSTRIES | GENERAL | 3:50 MINUTES

SCORM compliant

Broken Access Control

This module defines and explains broken access control, which allows attackers to access unauthorized functionality and/or data.

ALL INDUSTRIES | DEVELOPERS | 3:00 MINUTES

SCORM compliant

Cross-Site Request Forgery (CSRF)

In this module, we'll review common exploitation techniques and ways learners can protect applications from cross-site request forgery.

ALL INDUSTRIES | DEVELOPERS | 3:16 MINUTES

Create a free account to preview every training module.

Injection

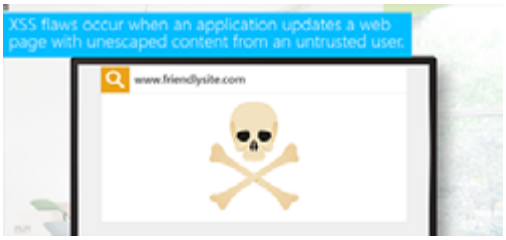
Injection is one of the most common, and harmful, security risks to web applications. This module details different types of injection and suggests effective mitigation strategies for the workplace.

ALL INDUSTRIES | DEVELOPERS | 4:25 MINUTES

SCORM compliant

Cross-Site Scripting (XSS)

Cross-site scripting (XXS) allows attackers to run scripts in a victim's browser to bypass access controls. In this module, we explain three types of XSS attacks and suggest XXS prevention measures.



ALL INDUSTRIES | DEVELOPERS | 3:35 MINUTES

SCORM compliant

Broken Authentication and Session Management

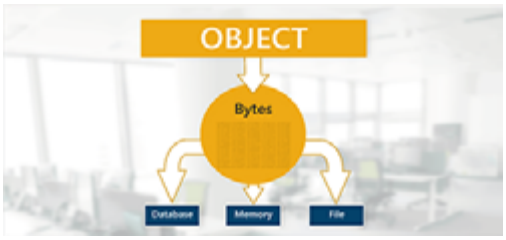
This module describes what incorrect implementation of authentication and session management functions are, and explains how it can allow attackers to assume other users' identities.

ALL INDUSTRIES | DEVELOPERS | 4:39 MINUTES

SCORM compliant

Insecure Deserialization

This module covers best practices for serialization - the process of turning data objects into binary streams of data.



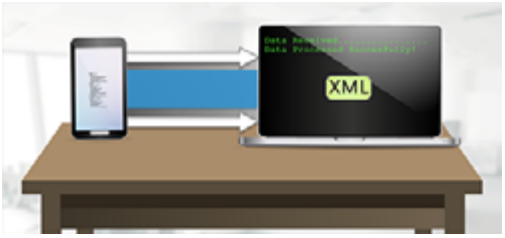
ALL INDUSTRIES | DEVELOPERS | 4:06 MINUTES

SCORM compliant

Create a free account to preview every training module.

XML External Entitites (XXE)

This lesson covers how XXE attacks are executed, and how to prevent those attacks on your applications.



ALL INDUSTRIES | DEVELOPERS | 3:24 MINUTES

SCORM compliant

Buffer Overflow

This module discusses the risks caused by buffer overflows and how to avoid them.

ALL INDUSTRIES | DEVELOPERS | 2:56 MINUTES

SCORM compliant

Acceptable Use Policy

When you start a new job or enroll in a new school, you'll often be asked to review and sign an Acceptable Use Policy for the network. Let's take a quick look at the purpose and contents of an AUP.

ALL INDUSTRIES | GENERAL | 4:39 MINUTES

Improper Error Handling

Errors are a fact of life in any system. But what happens when an error report ends up revealing a weakness? Take a closer look at the problem of improper error handling.
